## **iLASE TECHNICAL SPECIFICATIONS**

### Handpiece

Dimensions: Length: 7.2" (183 mm), with battery attached Diameter: 0.74" (18.7 mm) Weight: 0.22 lb (98 g), with battery attached Wavelength: 940 ± 15 nm Max Peak Output Power: 5 W Max Continuous Wave Output Power: 3 W Three Power Modes: Continuous Wave ComfortPulse<sup>™</sup> 1 ComfortPulse<sup>™</sup>2 Battery Power: Single, rechargeable Li-lon assembly; 3.7 VDC, 650 mA-h Presets: 10 factory-loaded & user-customizable 3 extra user-customizable

### **Charging Station**

**Dimensions**: W x H x D (4.72" x 2.5" x 3.95") (120 x 70 x 100 mm) Weight: 0.90 lb (412 g) **Charging Ports**: 4

# WITH NO FOOT PEDAL, POWER CORD OR EXTERNAL CONTROLS, THE REVOLUTIONARY ILASE<sup>™</sup> TAKES DENTAL LASERS BEYOND PORTABLE

### THE FIRST PERSONAL LASER

All the power and control is concentrated in your hand for uniquely personal performance.

- Solution No foot pedals to clutter your operatory floor
- Avoid getting tangled in cords and wires with single, self-contained handpiece
- Increase productivity with an unrestricted, truly personal experience

### **VERSATILITY AT THE TOUCH OF A FINGER**

With the ability to engage the finger switch from different positions, the iLase<sup>™</sup> allows maximum comfort and working efficiency, whether performing procedures in the anterior or posterior of the mouth.

- Wrap around finger switch accessible from any angle in the oral cavity
- "Standby" & "Ready Mode" Protection
- Fully autoclavable for easy infection control

## **CLINICALLY CONVENIENT**

The iLase<sup>™</sup> amazes because so much convenience is packed into such a small, portable device. Surgical tips are disposable for easy setup and teardown. And the iLase<sup>™</sup> ships with 10 factory-loaded surgical presets, with slots for 14 more of your favorite procedures.

### Presets include:

- Singival Troughing for Crown Impressions
- Gingivectomies
- Treatment of Perio Pockets
- Sulcular debridement
  Frenectomies
- Excisions
- Aphthous Ulcers
- Hemostasis
- Exposure of Unerupted Teeth
- Implant Recovery
- Crown Lengthening

Disposable Single-Use Tips
 Bendable & Adjustable
 Full Assortment of Lengths & Diameters for All Clinical Situations

## **BALANCED AND ERGONOMIC**

The precise ergonomics of the iLase<sup>™</sup> handpiece also reduce fatigue for clinicians. The entire iLase<sup>™</sup> weighs less than 100 g. BIOLASE engineers designed a well-balanced device that greatly reduces arm, wrist, and hand fatigue.

### **POWER THAT LASTS**

The iLase<sup>™</sup> delivers power when you need it most – at the time of treatment. Whether the procedure is long or short, iLase<sup>™</sup> has the battery life to meet your needs.

- Delivers up to 5 Watts of peak power for even the toughest soft tissue cases
- Adjustable power in tenths of a Watt for clinical precision
- Convenient countertop battery charger and extra batteries included
- 3 Watts of Continuous Power

The iLase<sup>™</sup> charging station recharges up to four iLase<sup>™</sup> batteries simultaneously, and batteries can be recharged whether or not they are connected to the handpiece.

### MADE IN THE USA

Unlike most medical and dental lasers, BIOLASE proudly designs and manufactures all of our lasers in the USA at our ISO 9001 facility in Irvine, California.

### **AFFORDABLE FOR ALL**

The iLase<sup>™</sup> was designed to be affordable, so that each dentist and hygienist can work with his or her own laser. One more way the iLase<sup>™</sup> is taking truly personal performance to a whole new level.
