# **Programat<sup>®</sup>** Instructions for the software update via web-updater:

# Supported devices:

# What do you need?

Programat P300 & P300/G2 Programat P500 & P500/G2 Programat P700 & P700/G2 Programat EP 3000 & EP 3000/G2 Programat EP 5000 & EP 5000/G2 Programat CS Programat S1

- PC with Windows (XP, Vista or 7)
- USB-download cable (included in the delivery of the Programat)
- Administrator rights on your PC (otherwise please contact the responsible IT-administrator)

# Congratulation!

You have decided to carry out a software update by means of the web-updater. You can find the current software version for your Programat on www.ivoclarvivadent.com/downloadcenter. The following instructions will inform you how to use this easy application.

#### **Procedure:**

- 1. Open the software update in the download-center
- 2. Double click the ".exe" file
- 3. Select "Extract all", choose the storage location with "Browse" and click on "extract"
- 4. Double click the ".exe" file. A window opens up to select the language. Please select your language.

5. Subsequently, follow the further instructions. The software update is completed in a few steps:

Ivoclar Vivadent	Ivoclar Vivadent	Tvorlar Vivadent
Turn off unit	Connect unit	Updating mode
Please turn the unit off.   Image Back Next Exit	Plase connect the unit with the PC.	Keep the two keys pressed and turn the unit on. Press the two keys after turning on for at least 3 seconds. Language Back Next Exit
Ivoclar Vivadent	Ivoclar Vivadent	Ivoclar Vivadent
Exit	Updating	
P500 V1.60	P500 V1.60	P500 V1.60
The software has been successfully installed and the unit will be rebooted.	The unit will be updated.	Press Next to start the update.

# Important information:

Please note that conducted to the installed software version all firing- and press programs (Ivoclar Vivadent and individual programs) are reset to the default factory settings during the software update. Therefore, we recommend noting down the settings or save it on a USB-stick or on a PC (via PrograBase 2 software)

ſ	i	٦
L	_	

**Particulars of Programat P300:** If the Programat P300/G2 software is loaded to a firstgeneration Programat P300 furnace, all individual programs are reset to factory settings. We therefore recommend that you note down the program parameters by hand prior to the update.
