The central system is particularly attractive to offices where nitrous oxide is used on a regular basis and available space will accommodate a central storage area. Savings obtained over time from the use of larger G and H cylinders offset the initial investment in a central gas storage system.

Portable Systems

Traditional Portables

4-Cylinder Portables

- 36100 – Ultra PC™ %
- 46100 – Ultra DC™
- 56100 – Digital Ultra™

2-Cylinder Portables

(not represented in pictures)

- 36000 – Ultra PC™ %
- 46000 – Ultra DC™

Mobility is the major advantage of the portable unit. It is usually the system of choice in offices where space limitations will not accommodate a central storage room or when economic constraints are an influencing factor. Also, the portable system (utilizing E cylinders) is most likely the answer when frequency of N₂O-O₂ use is low.

(Both utilize E cylinders)

Ultra PC™ %

Digital Ultra™
56100

Newport Enclosed Portables

Digital Newport Flowmeter System™

51000

4-Cylinder Enclosed Portables

(Both utilize E cylinders)

An enclosed portable keeps the cylinders out of sight and makes operatory turn-around (disinfection) faster and easier. The flat surface of the enclosed portable can be used as additional counter space.

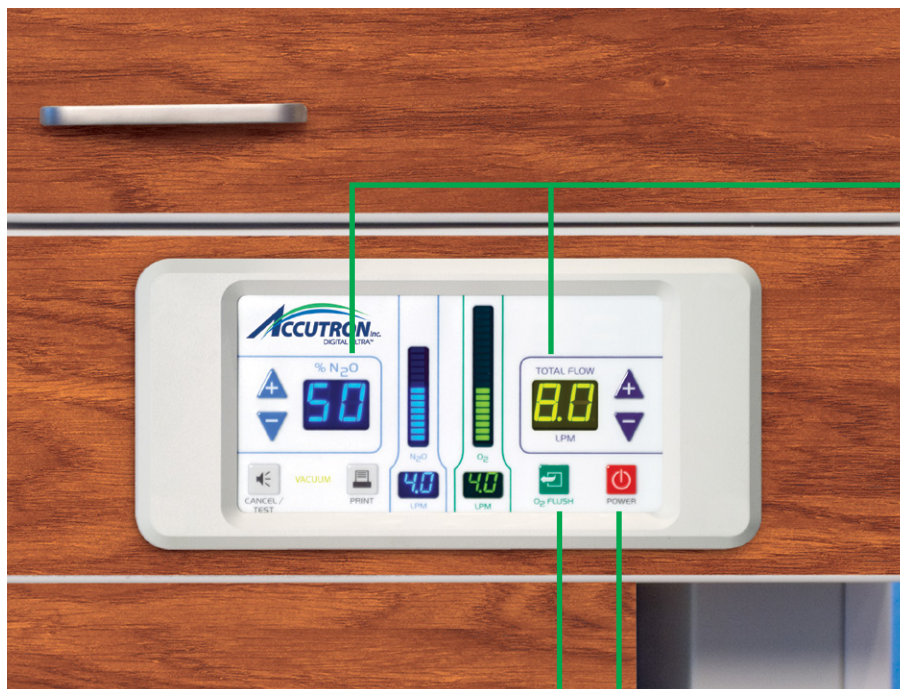

Newport Flowmeter System™

50000

...you decide.

Flowmeters for RFS™ Chairmount Kits

Digital Ultra™ Flushmount Pkg. H

Automatic Compensation

- Adjust total flow while gas ratio remains constant.
- Adjust gas ratio and total flow remains constant.

Self Monitoring

Maintains gas flow & ratio parameters; provides alarm notification if deviations occur.

Dual Readouts for Each Gas

The only flowmeter with both digital and electronic flowtube displays.

Audible & Visual Alarms

Immediate notification of low oxygen supply (industry recommendation).

On/Off

RFS™ and Chairmount Kits

Chairside Delivery Systems

Remote Flow System™ Mounted at Patient Chair

- Eliminates long mixed gas and vacuum hoses draping from adjacent cabinets, providing easier access for the doctor
- Creates uncluttered, safer work zone for doctor and staff
- Minimizes displacement of patient mask caused by drag/pull and weight of long hoses
- Store scavenging circuit and rubber goods when not in use
- Chairmount Kits listed on page 6

Remote Flow System™ mounts to patient chairs without drilling new holes and can be installed in the field – retrofit where possible or new construction. Kits available for a wide variety of dental chair brands.

Safety, Convenience, and Location, Location, Location.

Remote Flow System™ - Not So Remote!

Eliminate scavenging circuit hoses draping from cabinetry and keep your work zone clear and safe

Manifolds & Outlets

Digi-Flo™ Digital Automatic Switching Manifold/Alarm System

Pre-install mounting bracket allows effortless installation!

Cutting-edge Technology.

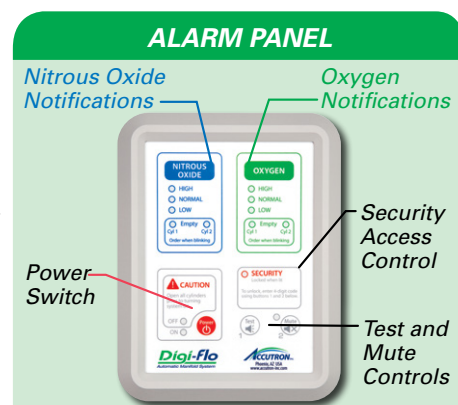

Favored for its advanced digital technology, the Digi-Flo™ Automatic System is user-friendly and convenient – it is designed to safely and precisely provide uninterrupted gas supply to the dental operator.

Easily accessible components; field upgradable software. System allows for dual alarm panels and up to 4 zone valves.

Wall or Desk Alarm Systems

- 49150 – Desk Alarm
- 49250 – Wall Alarm
- 49350 – Desk Alarm & Security
- 49450 – Wall Alarm & Security
- 49550 – Zone Valve (if required)
- 49053 – 2nd Wall Alarm Pre-Install Kit
- 49054 – Digi-Flo 2nd Wall Alarm
- 49054-S – Digi-Flo 2nd Wall Alarm with Security
- 27985-FRU – Digi-Flo™ Optional Conduit Kit
- 27954-FRU – Matrix Manifold Adapter Kit

Above packages include all manifold system components as well as a pre-install kit. To order without pre-install kit, add -NP to part number.

Guardian Monitor™ Conventional Manifold/Alarm System

The Guardian Monitor™ System is typically chosen by clinicians looking for an economical manifold purchase and who don't mind taking a walk to the storage area to manually switch over cylinders.

Wall or Desk Alarm Packages

- 38002 – Wall Alarm (2 O₂ + 2 N₂O)
- 38003 – Desk Alarm (2 O₂ + 2 N₂O)
- 38004 – Wall Alarm (2 O₂ + 1 N₂O)
- 38005 – Desk Alarm (2 O₂ + 1 N₂O)
- 39550 – Zone Valve (if required)

Above packages include all manifold system components as well as a pre-install kit. To order without pre-install kit, add -NP to part number.

Conventional.

Outlets

Micro Outlets

- 34012-3 – Triple Outlet Kit
- 34012-3-NS – Triple Outlet Kit without Shut Offs

Recessed Outlets

- 34004 – Triple Outlet (shown)
- 34005 – Dual Outlet

Dual and Triple Micro Outlets are perfect companions for flowmeter systems that are mounted in a cabinet, like the Digital Ultra™ Flushmount and the Ultra PC™ % Cabinet Mount. The Micros can rest on a shelf or the floor of a base cabinet and offer flexibility that isn't always possible with a fixed mounted outlet station.

1) In advance of construction:

- Provide for tubing chase from flowmeter location to chair J-Box.
- Install Vacuum, Oxygen, and Nitrous Oxide risers

2) Installation:

- Ensure cut-outs for the flowmeter and oxygen outlet are located correctly
- Mount Control Module Bracket, with long slot down. Feed cable through the slot. Connect cable to controller and press controller into bracket. Make sure cable is not pinched. To remove controller from the bracket, insert screwdriver into slot at bottom corner of controller and pry outward.
- Pull the Mixed Gas and Vacuum lines up to the Remote Flow System mounting location on the chair
- Install Remote Flow System to chair
([Locate separate chair mounting kit and instructions](#))
- Complete connections of all hoses
